

SEIZE THE DAY

Seize the day, Seize the day,
Seize the day, Seize the day, oh
Seize the day, Seize the day, oh...

Seize the day, Seize the day
Seize the day, Seize the day, oh
Seize the day, oh...

Talkin' to yourself
Cause you can't talk to noone else
Before the fun begins
You gotta just jump on in
The only way to make it
Is if you see a chance you take it
Seize the day

Dig the funky scene
You know what I mean
People feelin' good
Every reason why they should

They just let all their cares and problems rest for now
And you can do the same thing without taking any vow
I can show you how
The only way to make it
Is if you see a chance you take it
Seize the day

If you let this moment pass you'll hate yourself
Why not make today the day you take what's left
(And) enjoy yourself
Seize the day

Don't you know that
Life can be a new adventure
Always full of laughter, love and happiness
Don't be happy and complacent with the easy way out
You deserve the best, join the rest

Seize the day, oh
Seize the day, oh
Seize the day, Seize the day, Seize the day!
